Welcome to the Power 50 2025, our annual roll call of the movers, shakers, and voltage-raisers redefining the utilities sector.

This year's list shines a spotlight on 50 professionals who are keeping the lights on and rewiring the future of energy as we know it. From veteran executives guiding strategy at scale to innovators building the next generation of clean tech, these individuals are leading with vision, grit, and power. Whether it's hydrogen, heat pumps, or hybrid grids, they're driving progress where it counts, on the ground and in boardrooms.

Explore their contributions, draw inspiration, and recognise that the future of energy relies on the expertise and commitment of leaders like these:

<u>H.E. ENG. SUHAIL M. AL MAZROUEI</u>	<u>ALEXANDRE EYKERMAN</u>	<u>ASHRAF YEHIA</u>	<u>FRANCESCO LA CAMERA</u>	<u>KHALED AL HURAIMEL</u>

Eng. Yousif Ahmed Al Ali

CEO

Etihad Water and Electricity (EtihadWE)

Appointed in 2023, Eng. Yousif Ahmed Al Ali has transformed Etihad Water and Electricity with a focus on sustainability and digitalisation. He championed Reverse Osmosis desalination, launched the Distributed Solar System, and established the UAE's first government-owned EV charging network. His leadership has advanced smart infrastructure initiatives and strengthened EtihadWE's role in the region's energy landscape.
